

MCONNECT®

An easy-installation joiner system, only at mLight

The mConnect® is the new joiner system designed and engineered to provide seamlessly joined, stress-free lighting installations. Now available across all popular profiles in our product range to ensure your next mLight installation is hassle free.

Features:

- Easy to Install
- Seamless Joins
- Minimal Light Leakage

How to use:

- Bring both extrusion pieces with the mConnect together
- Rotate all four grub screws with an allen key until tight
- Repeat for all joints that have the mConnect

How can you ensure effortless installation and flawless lighting joins?
